

## Cleaning Product Considerations

Below are a selection of common cleaning products that you may want to consider when cleaning and maintaining your new bath and kitchen products. They will help keep your products looking new. The best rule of thumb is to use a soft liquid detergent and a non-abrasive sponge with warm water.

*(Note: Remember to always follow the manufacturer's instructions printed on the container.)*

MATERIAL	SUGGESTED CLEANING PRODUCTS	MATERIAL	SUGGESTED CLEANING PRODUCTS
EVERYTHING	 <p>Dawn Liquid Soap<sup>®</sup> Sponges</p>	POLISHED GRANITE, TRAVERTINE, LIMESTONE & MARBLE	 <p>Aqua Mix Polished Granite Cleaner</p>

WOOD CABINETRY & FURNITURE	 <p>Orange Glow Wood Furniture Cleaner Murphy Oil Soap</p>	WOOD FLOORS	 <p>Bona Wood Floor Cleaner</p>
	<p>RUST REMOVAL (PORCELAIN, VITREOUS CHINA, STAINLESS STEEL)</p>		 <p>Bar Keepers Friend Bon Ami</p>

### NOT RECOMMENDED

It is always better to stay away from cleaners that contain ABRASIVES, BLEACH, SOLVENTS, or high levels of AMMONIA as well as any AEROSOL cleaners. These are just a few examples.
